

Panelists: **Doug Dietzman**, Executive Director, Great Lakes Health Connect

Douglas Dietzman is Executive Director of Great Lakes Health Connect (GLHC), Michigan's only state-wide, full service health information exchange organization serving the needs of local healthcare stakeholders in communities across the state.

He developed and implemented Michigan Health Connect's start-up corporate business plan and private sustainability model. He also led the integration activities associated with the creation of GLHC through the merger of Michigan Health Connect and Great Lakes Health Information Exchange in July 2014. From an idea and initial seed money from the founding healthcare organizations, revenue has grown over 30% per year and the organization currently has a staff of over 30 high performing individuals.

His experience over the past 25+ years includes business and technology leadership in integrated delivery systems, health plans, physician offices, consulting and startup companies having worked for Andersen Consulting, Spectrum Health, First Consulting Group, iBelieve.com, Mercy Health Services, and Michigan Health Connect
